

## **Engineering Tripos Part IA, Product Design, 2017-18**

### **Lecturer**

[Dr N Crilly](#) [1]

### **Timing and Structure**

8 lectures, 1 lecture per week throughout the Lent term

### **Aims**

The aims of the course are to:

- Instil an appreciation of engineering design
- Introduce a basic systematic design process

### **Objectives**

As specific objectives, by the end of the course students should be able to:

- Define a problem statement for a simple engineering product
- Specify a requirements list
- Analyse the functional requirements of the product
- Generate and evaluate suitable design concepts
- Embody the design concept with attention to key design principles
- Consider the needs of different people who must interact with the product
- Present a design solution in the form of sketches and drawings
- Communicate the design process clearly to others

### **Content**

1. The context, nature and challenges of design.
2. The design process
3. Task clarification
4. Conceptual design
5. Embodiment design
6. Designing for people
7. Design representations

### **Booklists**

Please see the [Booklist for Part IA Courses](#) [2] for references for this module.

### **Examination Guidelines**

Please refer to [Form & conduct of the examinations](#) [3].
